

Welcoming the Expected Arrival of the Pierce County Ferry

Pierce County operates two car ferries, servicing Anderson Island and Ketron Island. In support of construction at their main landing, located in Steilacoom WA, one of the ferries will be required to tie up at Port of Olympia's Marine Terminal. On a rotational basis, the M/V Steilacoom II or the Christine Anderson will be docked at the marine terminal beginning July 15th, through the end of the year.

Vessel Flag: United States
Vessel Length: 198 Feet
Customer: Pierce County
