Airport Financial Summary

What do we know so far?

- Revenue is expected to remain consistent through remainder of 2026.
- Operating expenses expected to be under budget for the year.
  - Fifth FTE did not start until May 1.
- Maintenance expenses expected to be at or under budget based on current projected needs, scope, and estimates.

Airport Financial Summary

What do we know so far ? (cont'd)

- Challenges
  - The lack of an HCP restricts new development/revenue opportunities; revenue growth is therefore constrained by existing lease rate provisions and Commission-set annual Rates and Charges.
  - Revenue is sensitive to vacancy rates and tenant turnover.
  - Current rate of annual revenue growth is slower than increase in operating and maintenance costs.
- Seasonality
  - Revenue generally not affected.
  - Maintenance expenses however are quite seasonal due to need for consistently dry weather conditions.

Fee Setting

2027 Rates and Charges TBD

- Current leases:
  - Rate increases as specified within each lease.
- Hangar rates:
  - Annual increases set by Commission budget approval.
    - Recent annual increases:
      - 2024 – 5%
      - 2025 – 4%
      - 2026 – 5%
  - WSDOT Aviation statewide market rate analysis pending.

Fee Setting

2027 Rates and Charges TBD (cont'd)

- Aeronautical land lease rate:
  - Recent annual increases:
    - 2024 – 11%
    - 2025 – 0%
    - 2026 – 18%
- NMIC land lease rate:
  - Set by appraisal per policy 1101.

Key Performance Indicators

Best metrics that demonstrate success

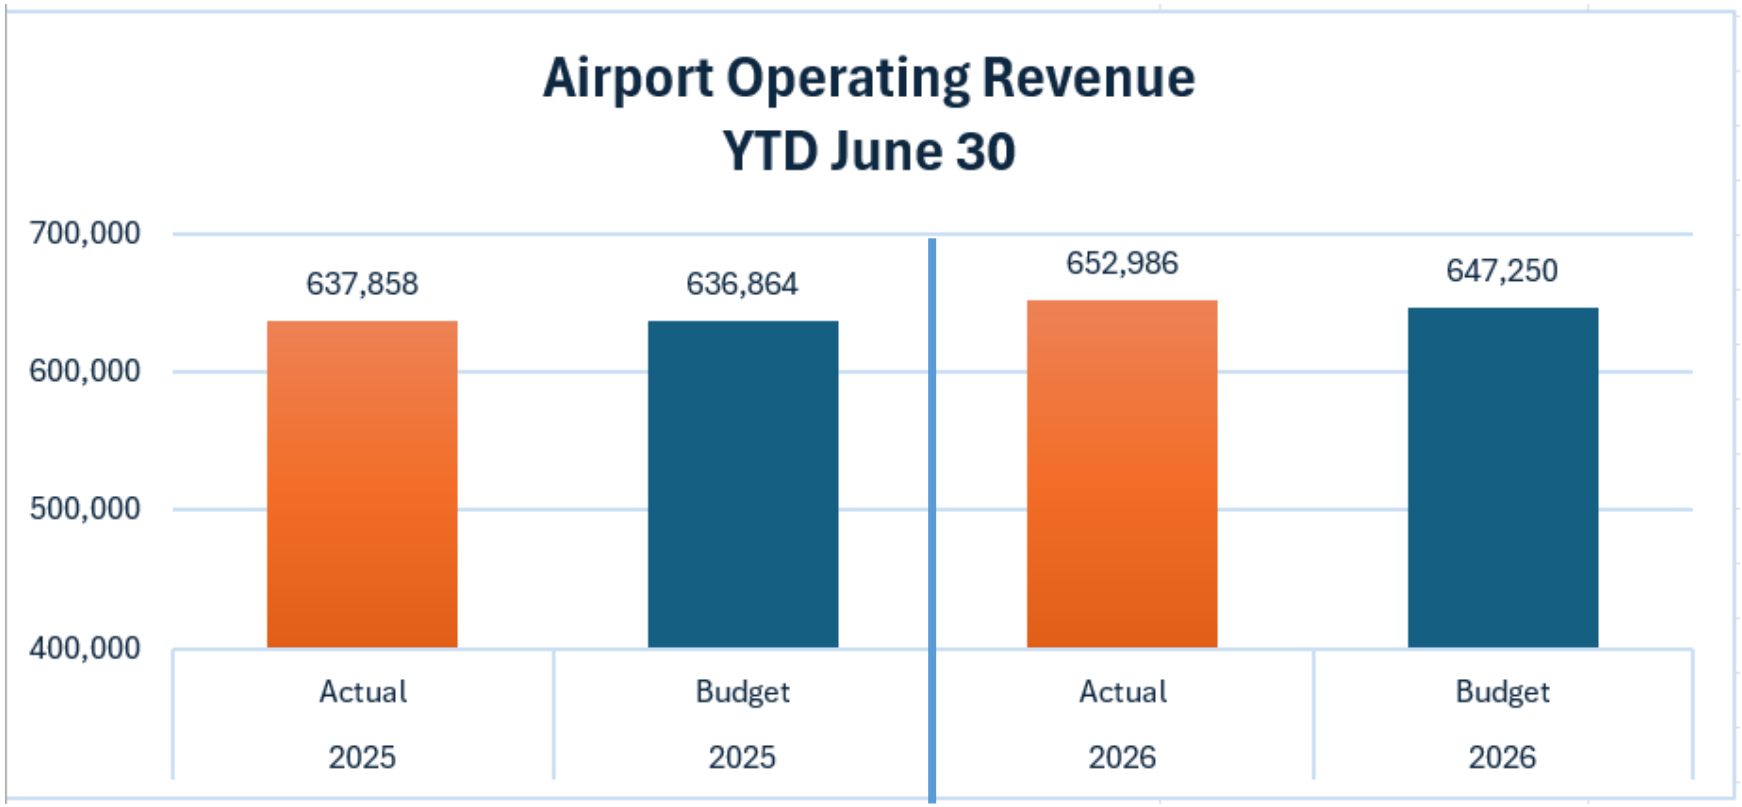

- Occupancy rate.
- Hangar lease rate proportionate to future asset replacement cost.
  - With proportionate contribution to annual airfield operating costs.
- Ability to fund an ongoing preventive maintenance program.
